

Animal Healing NOW[®] Est. 2006

Since 1999 Dr. Savko has affiliated with licensed veterinarians to help enhance the quality of care. Savko is a Pa licensed chiropractor with certification and vast experience working with animals. Currently he is part of the team at several veterinary hospitals around the Pittsburgh area. This one of a kind approach is closer to comprehensive body work than it is to traditional "animal chiropractic". Essentially the work is done by quick, gentle, and precise stimulation to the nervous system at specific points throughout the body. We use handheld instruments that can be dialed up or down for a kitten to a Clydesdale. The method is inherently safe and either helps in some way, or not. It cannot cause harm. Please go to www.animalhealingnow.com for more information. Thank you.

FAX (724-519-3409) or email (doctorsavko@yahoo.com) this form to Dr. Savko directly. If your office has any questions or prefers to give verbal consultation approval please call or text the doctor directly at 724-261-7915
